OPINION OF WILLIAMS.

WASHINGTON, Dec. 6 .-- Attorney General Williams has written to Governor Scott of South Carolina, regarding the Kuklux prisoners, on which he says: "In my judgement, it is not only impracticable, but improper to grant indiscriminate pardon to citizens of York and Chester counties, who have been convicted of violating the enforcement act, or to any person described only by the locality in which they reside, or designated as a class of offenders against the laws of the United States. A separate application for pardon should be made on behalf of each of said persons, stating substantially the circumstances of the crime and conviction. When such an application is made out, the president can consider it as favorable as his sense of justice will permit.

Mr. Dawes, from the committee on ways and means, reported a bil abolishing the offices of assessor and assistant assessor of internal revenue, and transfering their duties to collectors and deputy collectors.

After the bill was read Mr. Dawes offerred an amendment fixing be time it should go into operation on theist of July. He proceeded to explain the bil He said that the law of the 6th of Jun. 1872, directed the commissioner of intrnal revenue to reduce, on or before thust of January next, the whole number of collection districts to 80, and to dischargeall collectors and assessors except one seach of those 80 districts. The bill nw propos ed, was a substitute for that prwision, be. cause it was evident that the reuction of collection districts to one-thirdof the exsting number, would enlarge se area of them three-fold; and would, wth a diminished number of officers, preset too great a temptation to frauds upon svenue. By passage of this bill, the swings which would be effected over the ian provided by law in June last, would be \$1,700,000, and over the existing systen,\$300 ,000,

Mr. Myers of Pennsylunia, called attention to the fact that this bill would turn out of office assessos, men who had the most administrative experience in connection with internal revenue, and retain all the collectors. He thought the government should be authorized & select men from both classes of official, and therefore he gave notice an amendment which he would offer, legislating out of office the assessors and collectors, and providing for the subsequently appointment of new collectors. This, he said, would give the department a chance to select its best offi-

HORSE DISEASE.

THE PLAGUE SPREADING RAP. IDLY IN ST. LOUIS.

STOUT, ABLE-BODIED MEN TO TAKE THE PLACE OF HORSES IN THE FIRE DEPART-

MENT. St. Louis, Dec. 6 .- Damp and fogy weather last night and most all day. The horse disease has spread rapidly, and to-night there is scarcely a stable in the city without its full quotaof sick horses. The Fourth street railroad line and Sixth street line have suspended entirely, and most of the other roads save withdrawn several cars. Express ompanies have stopped receiving freight at their offices for shipment, but take all hat is offered at the different railroad deots and deliver parcels and small package by hand-carts. They are also using oxen o bring freights across the river. Nearlyall the transfer company's horses are sick and they, too, are using oxen. Several of the fire department horses are sick, and Chief Engineer Sexton will to-morrow advertise for stout, alle-bodied men who will be organized into companies, and placed under pay and be entirely under his direction and control. In East St. Louis there is scarcely a well horse, and oxen are doing most of the business. Several of the police depstment horses are also disabled, and the sounted police in the suburbs will be wit'drawn to-morrow, and the horses stabled. The disease so far, however, has been mild in type, and yields pretty readily to proper treatment. No virulent cases have yet devel-
